

ENVIRONMENTAL POLICY

SCHENKER ITALIANA S.p.A.

intends to make all personnel aware of the Environmental Management System and to create safe working conditions by undertaking to:

- **Operate** showing all due respect for the environment and the laws that protect it and complying with the rules stated in the UNI EN ISO 14001:2004 Environmental Management System
- **Act** in constant full awareness of the risks of environmental impact that can imprudently be caused
- **Guarantee** information exchange, updating and adequate training in order to develop knowledge, sensitivity and awareness of all employees with regard to environmental issues
- **Promote** research and studies so as to be able to adopt the best available technology for preventing environmental impacts
- **Set and achieve**, taking the connected responsibilities, own environmental security targets
- **Analyse** non-compliance notes and the connected risks in order to intervene opportunely by taking proper corrective or preventive actions
- **Review** at regular intervals the current Quality and Environmental Management System in order to set and implement constant improvement procedures
- **Operate** making sure never to cause damages to people, things and environment
- **Operate** complying with the requirements set out to guarantee the company's existence

All employees are involved in the above project and should take an active part in the implementation of the Quality and Environmental Management System

The Managing Director

Lorenzo Papa
